### Features

- Form, fit and function  
With a ruggedized, industrial strength steel cabinet and frame, the CLP-7200 Series offers Datamax DMX-400 emulation with nine resident fonts.  
Flash memory for downloading true-type fonts, graphics, and label formats, along with new interfaces such as parallel IEEE 1284, RS232C, USB and internal Ethernet make the CLP-7200 Series ideal for complex barcode labeling requirements. Label peeler and cutter modules offer greater printer configuration and application flexibility.
